## PHILIPPINE FIBER INDUSTRY DEVELOPMENT AUTHORITY

This Weaving and Processing Center will serve as a facility for the production and processing of fibers into finished products and aims to provide livelihood opportunities in the area. It was constructed by the Philippine Fiber Industry Development Authority (PhilFIDA) with funding from the National Government through the initiative of Senator Loren Legarda.

The facility was completed in May 2025 and turned over in July 2025 to the SM Sunrise Weaving Association, represented by its President Remedios A. Valencia, by PhilFIDA under the leadership of Executive Director Arnold "Ali" I. Atienza.
